

World Vision

**GLOBAL
6K FOR WATER**

May 6, 2017

**World Vision and The CareLink Foundation present:
GLOBAL 6K FOR WATER on May 6th at 9 AM in Naperville,
IL. Registration begins at 8:30 am at the South Front parking
lot of Pediatric Health's Naperville office.**

Did you know that some children have to walk 6 kilometers (3.72 miles) daily in order to collect water for their families? For some this can take 3 hours to complete and they can only collect as much as they can carry. In addition to the distance, the water they walk to collect is unsanitary can ultimately make them sick.

Wont' you please help change this?

Please join us by registering to walk/run to help change lives and provide clean water solutions for communities in need.

How do I register? You may register at

<https://www.teamworldvision.org/index.cfm?fuseaction=register.start&eventID=848&teamID=8512>

**Every \$50 registration fee provides clean water to one person (children 15 and under can sign up for just \$25!) This entitles you to a t-shirt, race bib and medal.

Don't let the cost prohibit you from participating! You can also register through The Carelink Foundation by visiting www.carelinkfoundation.org. Just make a donation of any size and let CareLink know that you want to participate. Your donation will be forwarded to World Vision.

Access to clean water is something we all deserve. Help end their walk by signing up for yours!
